

COVER FOR ICS SSS GEARBOX

Installation manual

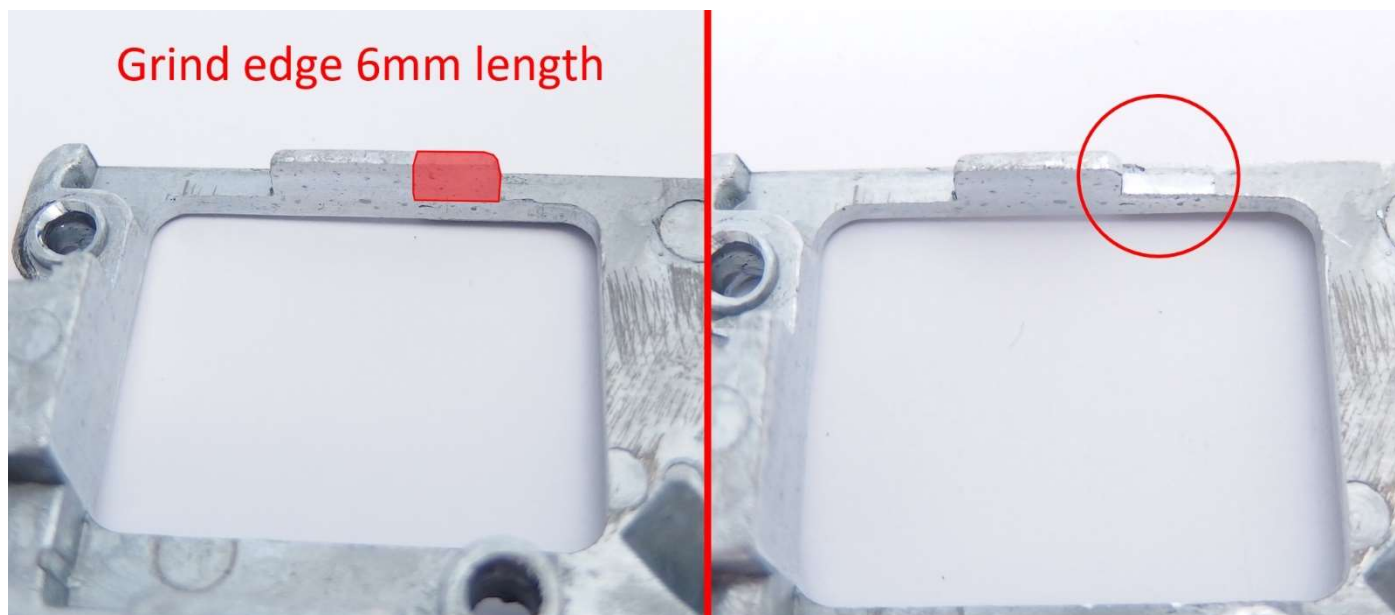

This cover fill a hole from SSS electronics in the ICS lower gearbox to install Leviathan - V2 or Leviathan - V2 optical.

Cover is 3D printed.

Grind the gearbox in red area, because it is interfering with leviathan.

Use super glue and glue edges on the cover facing to the gearbox.

Super glue edges

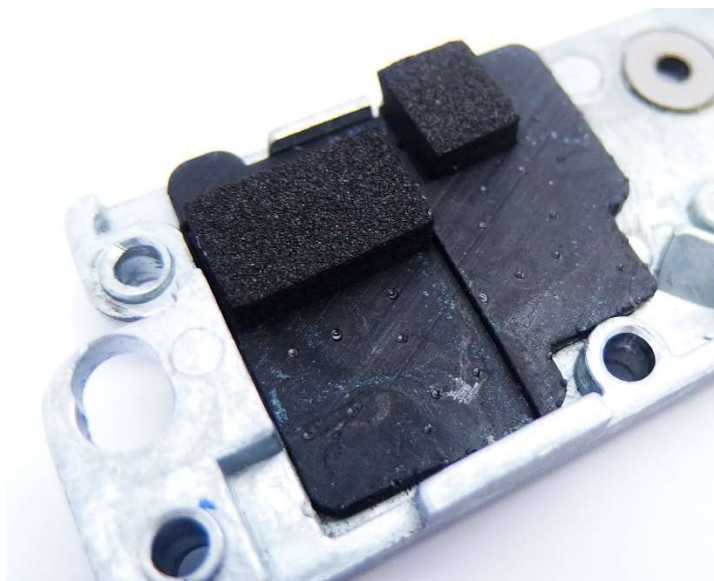

Insert cover inside the hole in the gearbox shell like on the picture.

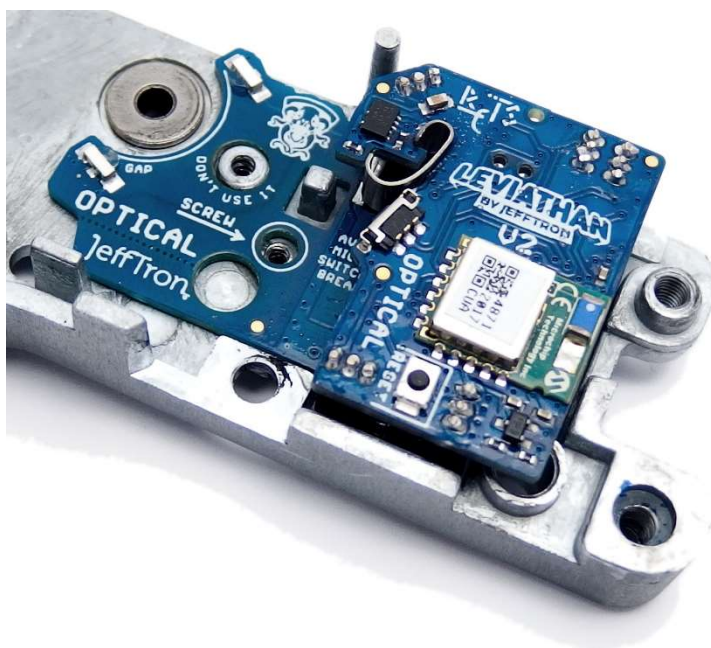

Cover has leviathan foams already placed.

Do not use foams which are in leviathan package, they are higher.

Place Leviathan – V2 or Leviathan – V2 optical into the gearbox

Cover has to be installed by expert. He must know how to disassemble the replica.

Warranty does not cover: water immersion, defects or damage from accident, misuse, abuse, wrong installation, bad handling, any modification by user.

Exclusion of liability: Manufacturer Ing. Filip Němec is not liable for any damages, injuries or accidents of any kind resulting from the use of this product in the airsoft gun.
